

CAPABILITY STATEMENT

ABOUT DOMESHELTER AUSTRALIA

DomeShelter Australia is a privately owned company, employing over 80 staff across multiple manufacturing facilities and offices, across Australia and abroad. Since being founded by brothers Geoff and Trevor Fawkes over 30 years ago, DomeShelter Australia has become a respected and leading supplier of superior, Fit-for-purpose Fabric Shelters.

Our clients span a wide range of industries in over 50 countries across the globe.

We remain a proudly Australian made, owned and operated company.

OUR PEOPLE

Dave Spangenberg
Head of Engineering

Alex Grigio
Head of Operations

Kobus Franck
Head of Commercial

DomeShelter Australia operates with a dedicated team of over **80 professionals** across our key locations:

● **Perth** ● **Northam** ● **Melbourne**

Our in-house Design, Engineering and Manufacturing teams work collaboratively to deliver innovative and Fit-For-Purpose Shelter Solutions to our clients worldwide.

We Live by Our Values

Build Trust | **Be Agile** | **Be A Team**

WE PROTECT PEOPLE AND ASSETS

DomeShelter Australia's mission is to protect people and assets from the harmful effects of the elements - quickly, simply and effectively.

Driven by Innovation

We strive to continually innovate and exceed customer expectations with high quality, durable and Fit-For-Purpose Shelter Solutions exported to the world.

CONCRETE WALL MOUNTED

Available add-ons

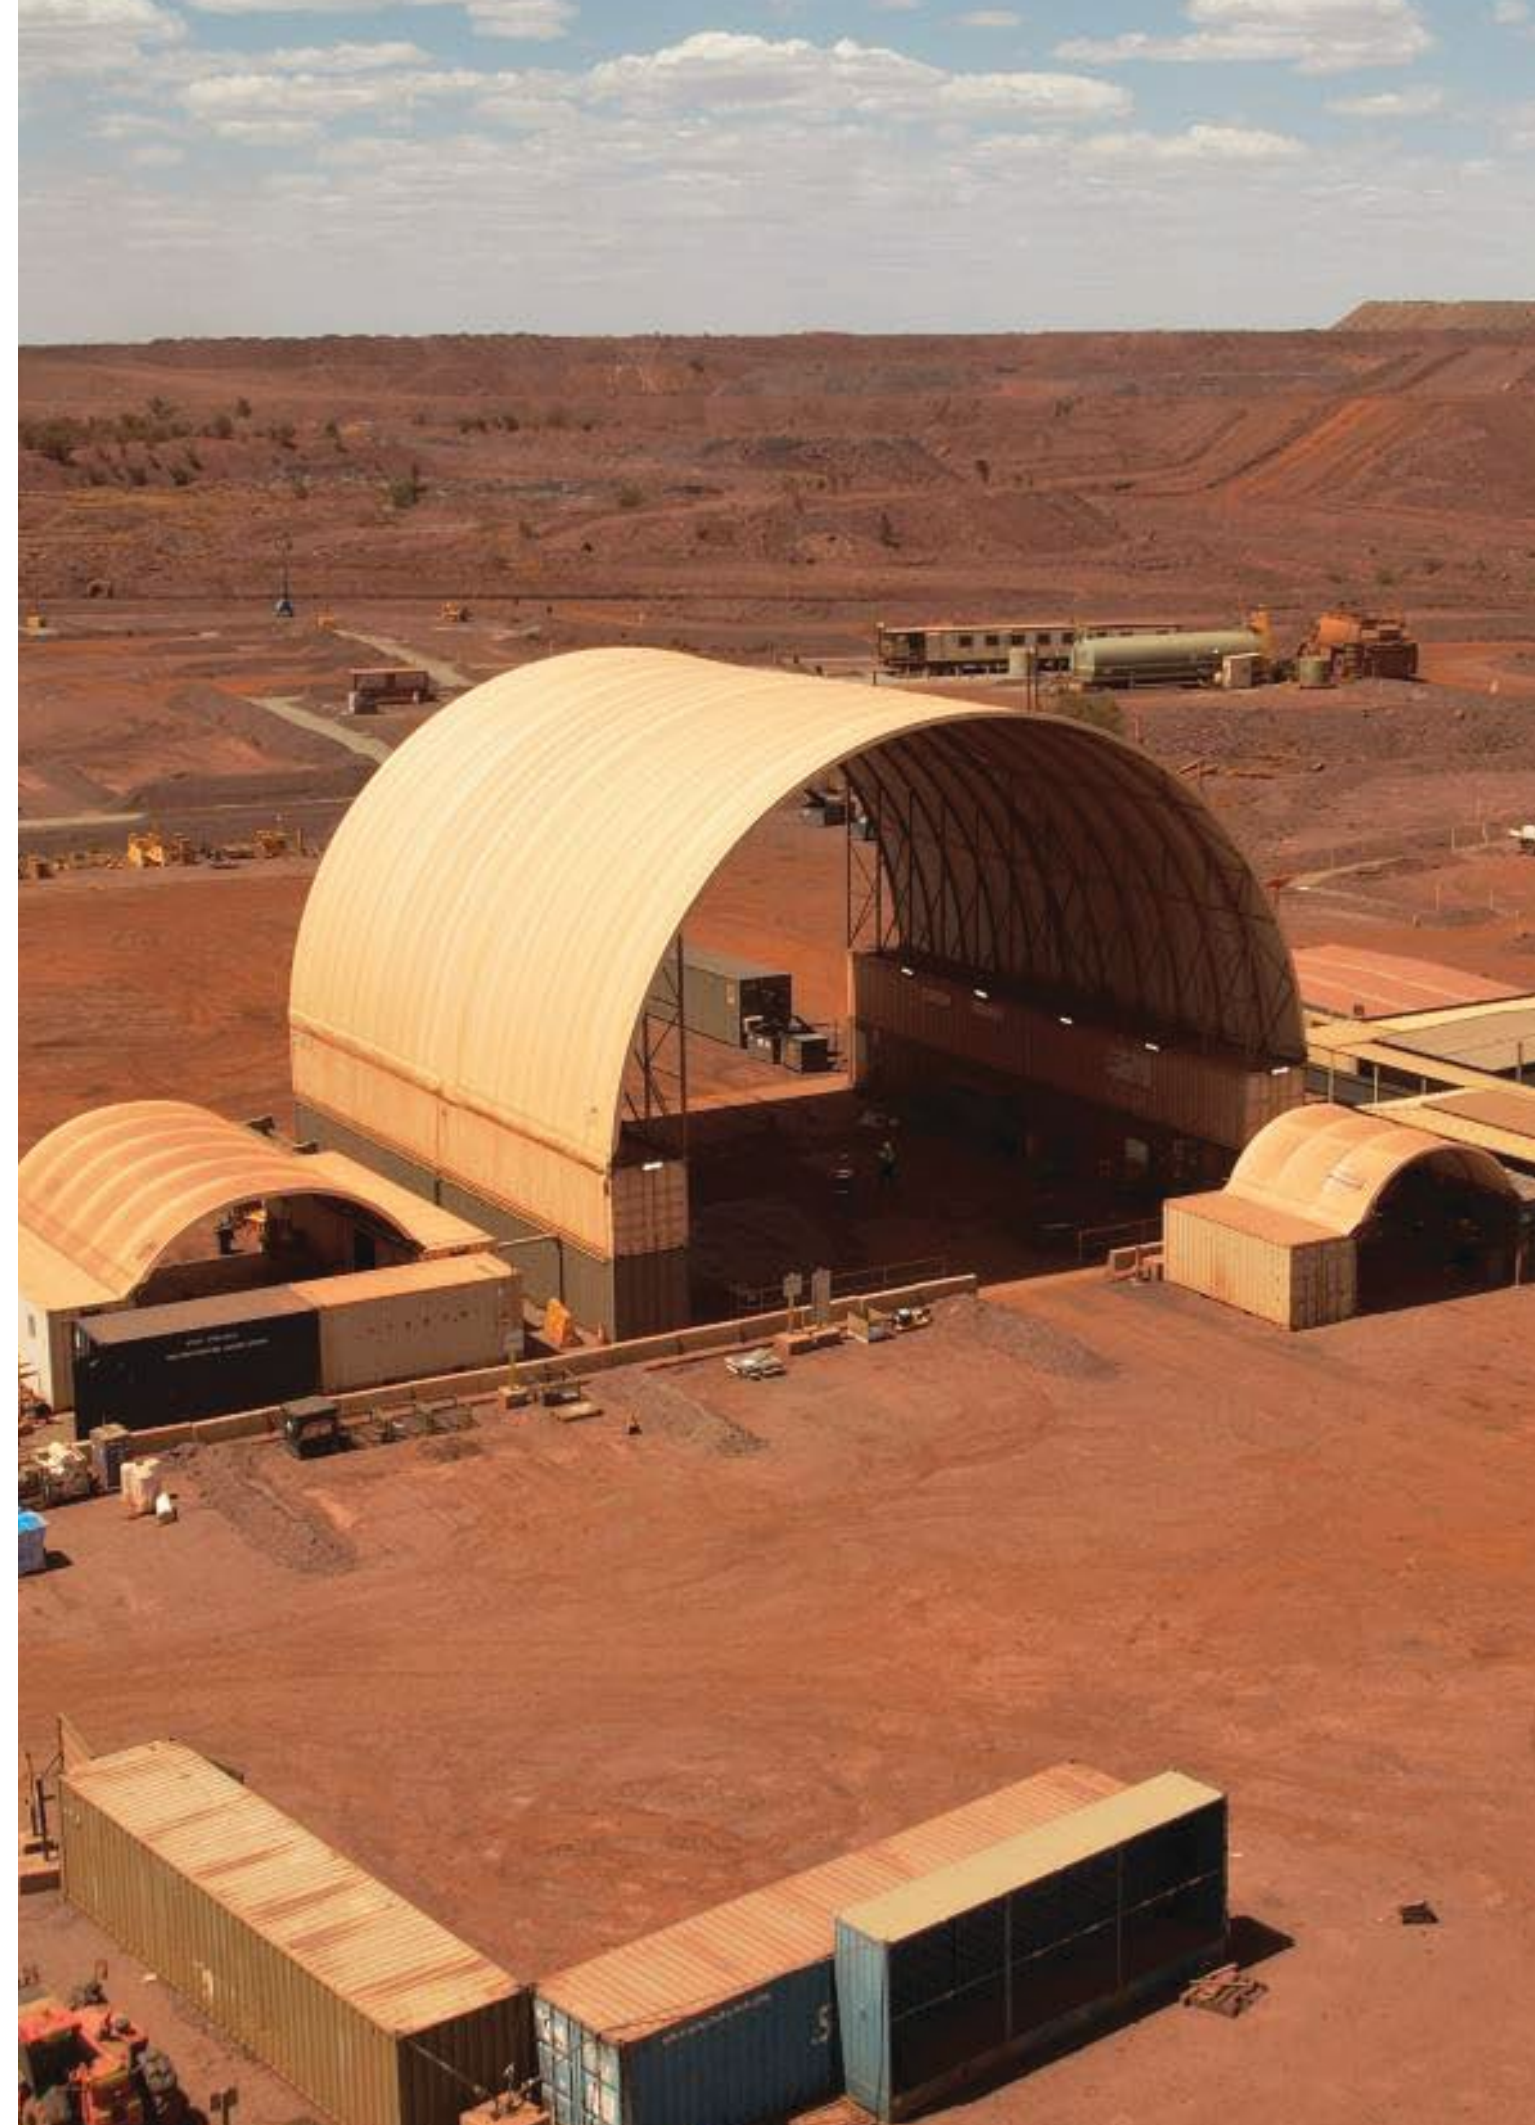

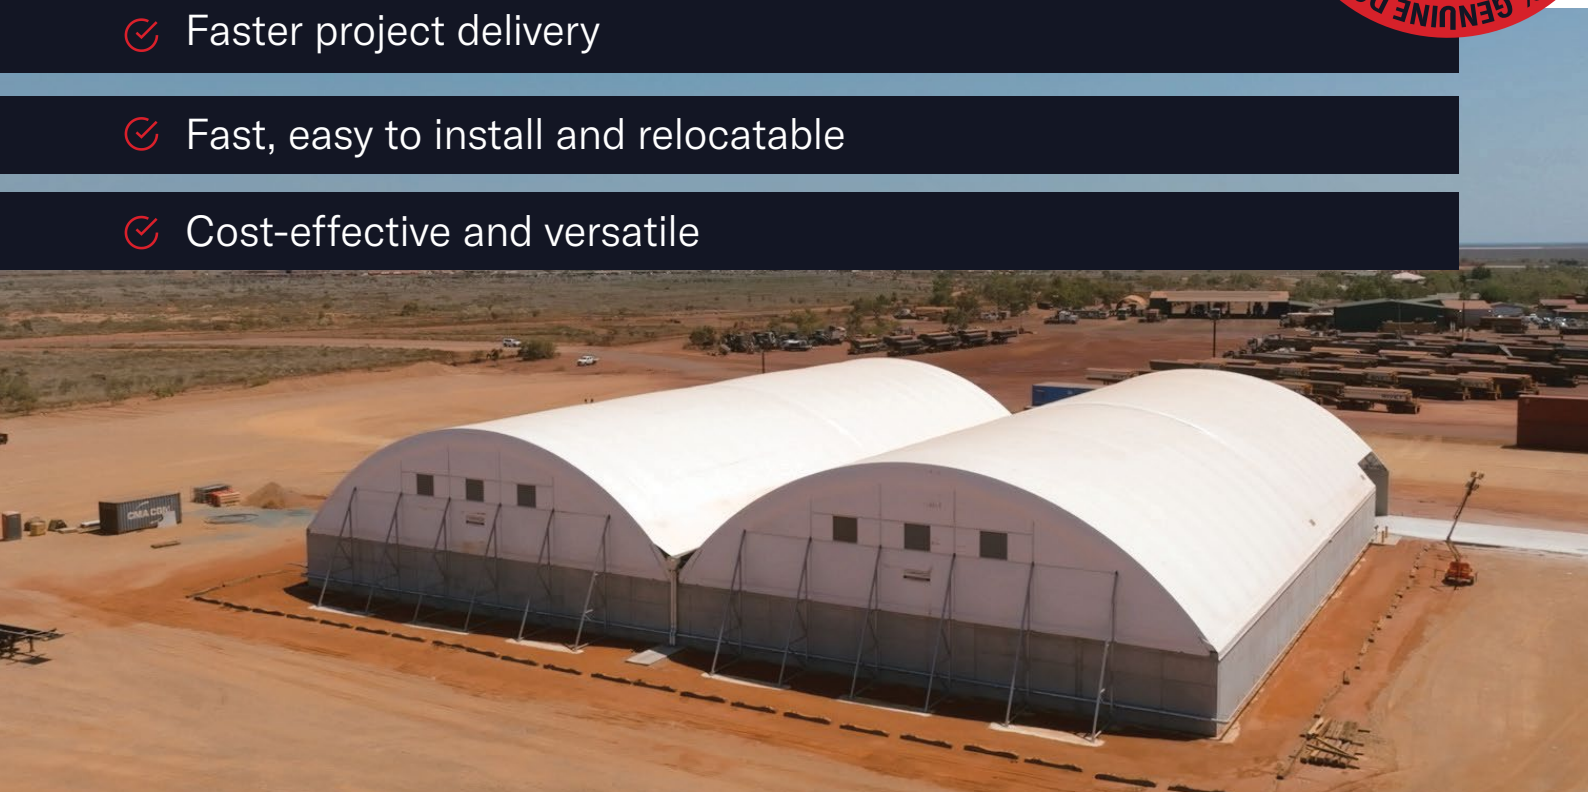

- ✓ LED Floodlight & High Bay Lighting
- ✓ Guttering & Water Management
- ✓ Ground Anchoring Solutions
- ✓ Portable Flooring Systems

- ✓ Signage & Branding
- ✓ Endwalls & Doors
- ✓ Sea Containers
- ✓ Lightning Protection

WHY CHOOSE A FABRIC-COVERED STRUCTURE?

With impressive advances in fabric technology and frame design, Fabric Shelters are now widely used where conventional steel buildings were once standard.

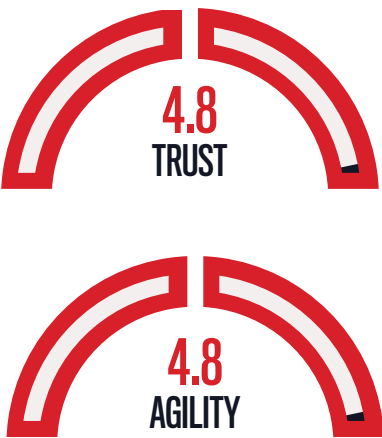

- ✓ Engineered to withstand tropical cyclone winds
- ✓ 10 year structural and 20 year UV warranty
- ✓ Faster project delivery
- ✓ Fast, easy to install and relocatable
- ✓ Cost-effective and versatile

CUSTOMER EXCELLENCE

Striving to deliver an exceptional and market-leading customer experience is a core part of our values. From first contact through to project delivery and post-purchase communications, our team focuses on a premium experience at every step of the journey.

TESTIMONIALS

“ Good quality product. Good customer service. Knowledgeable team. We purchased x15 dome shelters in past 12 months and Dome Shelter Australia have never let us down. The team is a pleasure to deal with and makes the whole process easy. Well done”

- **Garreth Twomey**, Monadelphous

“Great team, always responsive and very professional:

- Delivery was faster than expected (even with covid. Well done!)
- No hidden cost. Good quality product.
- Engineering drawings and documentation was very clear and delivered in time.

I strongly recommend them for all your Dome Shelter needs.”

- **Claire Vermet**, FMG

“Recently needed some additional shelter on site for trucks and equipment to protect them from the weather and came across DomeShelter’s products & were very impressed.

All communication was excellent, good old fashioned service & advice, right through to completion of the installation.

The shelter looks great and is the perfect size for our machines. Super happy with the experience, would highly recommend DomeShelter Australia. Keep it Up.”

- **Derek Mason**, Transplus

CASE STUDIES

VIEW THE VIRTUAL WALKTHROUGH

QUBE LOGISTICS

Location: Port Hedland, WA

Specifications: 30m W x 60m L (x2) | Wind Region D

Purpose: Bulk Storage

The Challenge

Qube required a large, cyclone-rated facility with high clearance for machinery and road trains to support bulk storage operations in the Pilbara.

Our Approach

DomeShelter Australia designed a customised two-bay facility mounted on concrete walls, providing robust storage with easy access for heavy equipment and vehicles.

CASE STUDIES

[VIEW THE VIRTUAL WALKTHROUGH](#)

TYRECYCLE

Location: Port Hedland, WA

Specifications: 30m W x 80m L | Wind Region D

Purpose: Tyre Recycling Operations

The Challenge

Tyrecycle needed a heavy-duty shelter for their Pilbara recycling facility, capable of withstanding extreme weather while supporting sustainability targets and machinery access.

Our Approach

DomeShelter Australia manufactured and delivered a fully engineered Truss Structure with integrated ventilation, lighting, and water management, ensuring durability, efficiency, and a safe workspace.

CASE STUDIES

AESA

Location: Anelo, Neuquén, Argentina

Specifications: 12m W x 24.4m L (x2) | Wind Speed 170km/h

Purpose: Vehicle Bays & Equipment Storage

The Challenge

AESA required two container mounted shelters for vehicle bays and equipment storage, engineered for regional wind speeds of 170km/h and snow loads of 0.9 kPa, while matching their existing DomeShelter™ Structures for consistency across sites.

Our Approach

DomeShelter Australia supplied two 12 m x 24.4 m DomeShelter™ Structures, container mounted with framed endwalls, roller and PA doors, and a custom gutter system. Delivered as complete prefabricated kits, ensuring rapid assembly, durability, and operational consistency across AESA's sites.
